

# Welcome to Patient Support Services

A customized support program for people living with pyruvate kinase (PK) deficiency and being treated with PYRUKYND® (mitapivat) tablets.

## myAgios is here to support you in your unique journey with PK deficiency.

We can provide helpful resources, including connecting you with our Patient Support Managers (PSMs) with clinical training. They'll listen to your needs and give you personalized tools to help you throughout your journey with PK deficiency.

We're ready when you are. Get your questions answered by calling our Patient Support Managers at 1-800-951-3889, Mon-Fri, 8 AM to 6 PM ET.

### What is PYRUKYND?

PYRUKYND is a prescription medicine used to treat low red blood cell counts caused by the early breakdown of red blood cells (hemolytic anemia) in adults with pyruvate kinase (PK) deficiency. It is not known if PYRUKYND is safe and effective in children.

### IMPORTANT SAFETY INFORMATION

**PYRUKYND may cause serious side effects, including:**

- **Rapid breakdown of red blood cells (acute hemolysis)** has happened after suddenly interrupting or stopping treatment with PYRUKYND. **You should not suddenly stop taking PYRUKYND.** If you have to stop your treatment with PYRUKYND, your healthcare provider should monitor you closely. Tell your healthcare provider right away if you develop any signs or symptoms of breakdown of red blood cells including yellowing of the skin or the whites of your eyes (jaundice), dark colored urine, dizziness, confusion, feeling tired, or shortness of breath

**Please see additional Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, for PYRUKYND in pocket.**

**The purpose of this program is NOT to offer medical or treatment-related advice.** For these types of questions, contact your doctor.

# Dedicated Patient Support Managers are here for you

What happens when you have a Patient Support Manager on your team?  
You get personal support.

Your Patient Support Manager will get to know you and your story with PK deficiency. You'll chat with them and they'll listen to your concerns and understand what you're looking for. Then, they can provide tools to help you understand PK deficiency and treatment with PYRUKYND® (mitapivat) tablets.

No matter where you are in your journey, our Patient Support Managers can help with all sorts of questions, including:

## How do I get the support I need living with PK deficiency?

Whether you're newly diagnosed or have been living with PK deficiency for a while, a Patient Support Manager can give you educational materials on PK deficiency, including what it is, its causes, how to get free genetic testing, and other helpful resources.

## How do I get more details on PYRUKYND?

A Patient Support Manager is available to answer questions and share tips on having discussions with your treatment team.\*

## Can I get help with accessing PYRUKYND?

A Patient Support Manager can help you find support for accessing PYRUKYND.

They'll guide you every step of the way, including:

- Program enrollment to receive your prescription
- Navigating insurance questions and challenges
- Getting financial support if you're eligible

**Learn more about access and financial support for PYRUKYND on pages 4 and 5 or at [PYRUKYND.myAgiOS.com](https://PYRUKYND.myAgiOS.com).**

\*PSMs will be coordinating with the specialty pharmacy network and can discuss product characteristics (eg, dosing, delivery of product to you, reporting any side effects you may experience).

### **Can I get help building a positive relationship with my doctor?**

A Patient Support Manager can provide you with resources to prepare for your appointments. They'll help you phrase and organize your questions so you can feel empowered to explain your needs to your doctor.

**For tips on talking to your doctor, download our doctor discussion guide at [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com).**

### **Where can I find and talk to other people living with PK deficiency?**

A Patient Support Manager can invite you to upcoming webinars, where you'll hear from a community of people who understand PK deficiency.

**To learn about upcoming webinars with the PK deficiency community, visit [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com).**

**We're ready when you are. Get your questions answered by calling our Patient Support Managers at 1-800-951-3889, Mon-Fri, 8 AM to 6 PM ET.**

The purpose of this program is NOT to offer medical or treatment-related advice. For these types of questions, contact your doctor.

**Please see Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, for PYRUKYND in pocket.**

# Get the rundown on financial support programs for PYRUKYND<sup>®</sup> (mitapivat) tablets

If you're eligible for financial support, we can help you find programs for accessing PYRUKYND. Our Patient Support Managers will guide you every step of the way—from enrollment forms to insurance questions and challenges.

For eligible patients with a prescription and approval from their insurance:

## **PYRUKYND fulfillment and delivery**

The specialty pharmacy will fulfill your prescription. If your doctor and insurance company determine you are eligible for treatment, we will deliver PYRUKYND to your door.

For eligible patients with commercial insurance:

## **PYRUKYND Copay Program**

This program lowers the cost to \$0 per prescription if you're eligible, regardless of how much you make. Support is available for those who qualify.

**Patients participating in government healthcare insurance are not eligible.**

For eligible patients with state and government or private insurance:

## **Independent foundations**

Independent foundations may be available to help you with out-of-pocket expenses. myAgios<sup>®</sup> Patient Support Services or our specialty pharmacy can provide more information.

For eligible patients who are uninsured or underinsured:

### **Patient Assistance Program (PAP)**

This program may be able to help you access PYRUKYND, if you are eligible. Income restrictions apply.

For eligible patients who experience an interruption in health insurance coverage:

### **Access for coverage interruption**

This program offers temporary access to free product for eligible patients.

Patients participating in government healthcare insurance are not eligible.

**Please see full Terms and Conditions for each program at [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com).**

**Get more details at [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com) or call our Patient Support Managers for help finding the program for you.**

**We're ready when you are. Get your questions answered by calling our Patient Support Managers at 1-800-951-3889, Mon-Fri, 8 AM to 6 PM ET.**

The purpose of this program is NOT to offer medical or treatment-related advice. For these types of questions, contact your doctor.

**Please see Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, for PYRUKYND in pocket.**

## Important Safety Information (cont.)

The most common side effects of PYRUKYND® (mitapivat) tablets were decrease in reproductive hormone (estrone) in men, increased salt from uric acid (urate) blood test, back pain, decrease in reproductive hormone (estradiol) in men, and joint pain (arthralgia).

These are not all the possible side effects of PYRUKYND. Call your healthcare provider for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088 or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).

**Before taking PYRUKYND, tell your healthcare provider about all of your medical conditions, including if you:**

- have liver problems
- are pregnant or plan to become pregnant. It is not known if PYRUKYND will harm your unborn baby. Tell your healthcare provider right away if you become pregnant or think that you are pregnant during treatment with PYRUKYND
- are breastfeeding or plan to breastfeed. It is not known if PYRUKYND passes into your breast milk. Talk to your healthcare provider about the best way to feed your baby during treatment with PYRUKYND

**Please see additional Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, for PYRUKYND in pocket.**

The purpose of this program is NOT to offer medical or treatment-related advice. For these types of questions, contact your doctor.

# But wait, myAgios® Patient Support Services can give you more

Along with our experienced Patient Support Managers, here are other resources to help you:

## PK Deficiency Community Webinars

Expand your PK deficiency knowledge while connecting with other patients and their caregivers—people who understand your experience. Sign up for upcoming webinars at [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com).

## PYRUKYND® Treatment Journal

Log your notes in a journal that's designed to help you track your PK deficiency and treatment with PYRUKYND. Download it at [PYRUKYND.myAgios.com](https://PYRUKYND.myAgios.com).

We're ready when you are. Get your questions answered by calling our Patient Support Managers at 1-800-951-3889, Mon-Fri, 8 AM to 6 PM ET.

## Important Safety Information (cont.)

**Tell your healthcare provider about all the medicines that you take**, including prescription and over-the-counter medicines, vitamins, and herbal supplements. PYRUKYND and certain other medicines may affect each other causing side effects. PYRUKYND may affect the way other medicines work, and other medicines may affect how PYRUKYND works. Know the medicines you take. Keep a list of them to show your healthcare provider or pharmacist when you get a new medicine.

**Please see additional Important Safety Information throughout and accompanying full Prescribing Information, including Patient Information, for PYRUKYND in pocket.**

**The purpose of this program is NOT to offer medical or treatment-related advice.** For these types of questions, contact your doctor.
